

MBUI WORLD LAND LTD COMPANY PROFILE

BRIEF HISTORY

Mbui World Land Ltd emerged in 2021 as a dynamic and innovative player in the real estate industry. It was founded by a group of seasoned entrepreneurs with a shared passion for land development. With their combined expertise in real estate and a deep understanding of market dynamics, they set out to create a company that would make land ownership more accessible to the public.

Recognizing the growing demand for affordable housing and investment opportunities, particularly by individuals and families seeking to build their dream homes, the company began acquiring large tracts of land that could be subdivided and sold as smaller parcels to individual buyers.

The journey began with careful research and analysis to identify regions with favorable market conditions and growth potential. Leveraging their industry experience and extensive network, the founders strategically acquired several parcels of land across promising locations, ensuring proximity to urban amenities and potential for future development.

In 2022, Mbui World Ltd unveiled its first project, located in the serene Kitengela Acacia plains.

Embracing technological advancements, Mbui World land introduced an intuitive online platform that allowed buyers to explore available lots, view detailed maps and access relevant documentation. This user-friendly approach facilitated seamless communication and transparency throughout the purchasing process, ensuring customers felt confident and informed in their decision-making.

Today, Mbui World Land Ltd continues to thrive, driven by its core values of integrity, transparency, and customer satisfaction. With a dedicated team of professionals, the company remains steadfast in its mission to provide accessible land ownership opportunities
